Preserving and Enhancing the Value and Vitality of Downtown

## Issues and Eggs Breakfast Forum: Capitol Complex Redevelopment Plan

The Texas Facilities Commission (TFC) has announced that it plans to re-imagine the future of state government's presence in the heart of Austin. This new plan could triple the amount of space at the Capitol complex, add 7 million square feet of space to downtown, and include joint development with private interests where parking lots or garages currently exist.

On June 3, 2010, the Downtown Austin Alliance invites you to join us for a special Issues and Eggs Breakfast Forum where members of the TFC team will provide more information on the concept, and discuss the implications to downtown and the entire city.
